

CEMENT REMOVAL AGENT

Removal agent for cement dust and other
alkaline contaminants

CEMENT
DUST

STONE
DUST

HARD
WATER
STAINS

RUST

Benefits

- **Easily removes the contaminants** that are otherwise almost impossible to remove without damaging the modules
- **Developed** specifically for PV modules and tiles
- **No more scrapping** - reacts immediately with the contaminants and emulsions the particles
- **Tested by TÜV Sud** - does not damage the ARC, silicone and aluminium frame
- **Readily biodegradable** and environmentally friendly
- **Act preventively and protect the modules** with one of our anti-static coatings to avoid the recurrent use of the Cement Removal Agent

Applications

- PV panels, thermal solar panels, PV solar tiles, etc.
